

Facing Reality in the Headwaters

Statewide Implications

Forest Resilience Project

The Yuba Project

Overgrown

Restored

Camptonville Biomass

A biomass facility similar to our Camptonville project

The background of the slide is a scenic landscape photograph. It shows a wide river flowing through a valley. The riverbanks are covered with green vegetation and some rocky areas. In the background, there are rolling hills covered in dense green trees. The sky is a clear, light blue. A thick blue wavy line runs horizontally across the middle of the image, separating the landscape from the text below.

Yuba Water Agency
